Architectural Control Notice

Homeowners are required to submit an “Application for Architectural Change” form to the HOA if you are planning to make updates, replacements or other improvements to the exterior of your home or property; even if you are replacing or updating with similar products or the same paint colors. Anything visible on the outside of your house or within the yard must be submitted for approval to the Architectural Control Committee (ACC) as our covenants require.

Applications must be accompanied by complete plans, sketches, samples, color chips and/or other pertinent information so that the ACC has as complete an idea of your project as possible. When requesting fence changes, sheds, accessory buildings, or play structures, also submit a drawing of your yard showing the location of the fence or item and indicate the material, height and style of the proposed fencing, shed or structure.

Forms are available at the office or on the website at www.homesteadinthewillows.org.

WATERKETCH SPRINKLER

Some interesting water facts...

- *The Colorado River no longer reaches the ocean, because so much water is extracted up stream.*
- *The Arapahoe Basin Aquifer and other Aquifers in Centennial, which once provided water to Homestead in the Willows, are so depleted that in 2002 Willows Water District switched over to Denver Water.*
- *Turf is the single largest irrigated crop in America.*

Water. Worth Saving.

**WATERKETCH

• 9-10 Boys 50 Butterfly:

Brendan Eckerman 37.45

(previously held by Mike Csrnko 1991)

HOMESTEAD IN THE WILLOWS HOMEOWNERS ASSOCIATION

Regular Board Meeting July 12, 2011 – Unofficial Minutes

CALL TO ORDER: Board President, Reed Richardson, called the meeting to order at 6:30 p.m. Board Members present were Aloah Kincaid, Chris Raab Christopher Molke and Bill Shelden; as well as Business Manager, Katie Kidwell; Pool Manager, Jaylene Jones; Landscape Manager, Nancy Bauer; and Tennis Manager, Melissa Shuck.

MINUTES: The minutes of the June 14th regular meeting were approved as read.

SWIM TEAM: Business Manager, Katie Kidwell, read a written report from the Swim Team Parent Representatives. They thanked the Board for their monetary contribution toward the July 4th festivities. Prelims would be held the following day at the North Pool with finals following on July 16th.

FINANCIAL REPORT: Treasurer, Aloah Kincaid presented to the Board a cumulative Profit and Loss report. She advised the Board that the \$ 157,000 payment from Comcast for easement rights in the common area could be considered a taxable event. She was waiting for confirmation from the auditors. Expenses totaled \$100,691 during June, 2011 and included \$27,990 in Pool Expenses, \$29,552 in Land Maintenance charges, \$25,302 for Trash and Utilities and \$13,193 in Tennis Expenses.

MANAGER REPORTS

1. **POOL:** Pool Manager, Jaylene Jones, reported that the pool equipment was functioning normally after a problem with the North Pool motor had been corrected. The North Pool had been vandalized twice so far this year and the Sheriff's office had been notified and asked to conduct more "drive by's" during the evenings. A Workman's Compensation claim had been filed on behalf of one lifeguard who inhaled chlorine while helping another guard shock the pool. Jaylene reviewed the Front Range policy on shocking the pool, the safety equipment used and the Hazmat training required during orientation. The Board was satisfied with the procedures and equipment already in place. Jaylene further reported a complaint from a resident who objected to the lifeguards participating in the July 4th activities. Since the lifeguards are Homestead Residents, Front Range had given them permission to participate while on their breaks. Additional lifeguards are always provided free of charge by Front Range for the July 4th activities for just that reason.
2. **LANDSCAPE:** Landscape Manager, Nancy Bauer, reported the perimeter fence repair for 2011 had been completed. Homestead had been reimbursed by Xcel Energy for irrigation and concrete damage which occurred while Xcel replaced a failing power line. A review of sprinkler repair charges showed that they were in line with previous years. Nancy and Board Member, Chris Raab, met with Mark Peterson of Water Ketch to discuss the need for the HOA to have an accurate set of "as-built" drawings of the irrigation system. Because of Mark's familiarity with the necessary software, the cost to provide the drawings (\$900) was much less than if we had to hire a Landscape Architect to create them. Chris went on to say that annual updates should be provided and that they should be stipulated in Mark's contract. Christopher Molke moved and Aloah seconded that the Board approve the expense of \$900 to provide updated digitized "as-built's" by the end of 2011. The motion passed unanimously.

(Continued on page 7)

3. **TENNIS:** Tennis Manager Melissa Shuck announced that the installation of the rebound net at the North Courts was delayed when the bungee cords used to attach the net were stolen. New cords had to be ordered and the net would be installed when they arrived.
4. **BUSINESS:** Business Manager, Katie Kidwell, reported two of the five homeowners who had liens filed for non-payment of HOA dues had paid their dues. The remaining three were still outstanding as was one homeowner who was on a payment plan. Vending machines had historically been provided at the swimming pools by Coca Cola who declined to deliver the machines this year because they don't produce enough revenue. Katie had found another vending machine provider, but he has had to locate unused machines and it was taking longer than hoped to get machines at each pool.
5. **COVENANT REVIEW TASKFORCE:** Reed Richardson read a written report provided by the Taskforce. The goal of the Taskforce was to walk the community during June and finish by mid-July. All teams had finished by the week of July 11th. Each team reviewed approximately 150 houses as well as perimeter fences and greenbelts spending about seven hours per team. A summary of the types of issues cited and total number of homes cited would be available for the August Board Meeting.
6. **ACC:** Board liaison, Aloah Kincaid, announced that the ACC would meet on July 19th to discuss current issues. Aloah would attend the meeting.

OLD BUSINESS: Dunbar-Horneck lawsuit: The formal discovery date had closed. The HOA attorney's expected the Plaintiff's responses to their additional discovery requests. The next step would be the filing of pre-trial motions and identification of exhibits and witnesses. Kennedy Childs & Fogg, P.C. continued to vigorously defend the HOA and trial was expected to commence on Monday, August 29th at 8:00 a.m. The prospective antennae to be installed on the Xcel power pole on the NW corner of Dry Creek and Quebec was on hold. The project was being held up in federal court because of possible interference with GPS signals. Board Member, Bill Shelden, had found the history of the previous requests to place cellular antennae on the power pole. In 2002 T-Mobile had approached the Board to lease the HOA property for equipment but the Board at that time acceded to the wishes of three homeowners who backed to Dry Creek and denied the request. The Board agreed that the current Board wasn't bound by the decision of the prior Board and that they would act in the best interest of the entire community.

NEW BUSINESS: The final audit report contained a few errors. Aloah would speak to the auditors. Christopher Molke suggested that the Comcast easement payment be earmarked to re-build the North Tennis Courts. No final decision was made.

ADJOURNMENT AND CALENDARING: The meeting adjourned at 7:55 p.m. The Board moved into Executive Session at 7:56 p.m. to discuss the ongoing litigation. The next regular Board Meeting will be on Tuesday, August 9th at 6:30pm at the Business Office.

LANDSCAPE LOGIC

By Nancy Bauer

August Quick Gardening Tips

*Last month to fertilize roses. Get this done by August 15th.

*Powdery mildew can be a problem for roses, lilacs, columbine, asters, and turf. Restrict late day overhead watering by watering before noon to allow plant material to dry out.

*Weed your garden frequently. Watch to see that weeds do not grow so large that they drop seeds!?

*Add some mulch to trees and shrubs beds. Mulch reduces evaporation from the soil into the air and also keeps the soil slightly cooler.

Don't Pull that Thistle

When July temperatures get hot, the summer crop of weeds shows up in mass in shrub and flower beds in particular. Being proactive from the start gets weeds under control and keeps your landscape looking neat and trim.

Typical weeds in the hottest part of the growing season include spurge, purslane, mallow, bindweed and thistle. With the exception of thistle and bindweed one of the best controls is pulling them out or hoeing. Bindweed and thistle have regenerative root systems and pulling them actually stimulates new growth.

The best control for these weeds is applying a treatment that will kill the above-ground plant and the root system so that they will be dealt with for good. If these weeds are in grass areas, be sure to select a product that will not harm the grass.

Deadhead to Keep Plants Blooming

For most popular plants, blooming can be prolonged with prompt deadheading (removing spent blooms). If the plant is allowed to form seed, it stops blooming or

may even die, having done its reproductive role for the season. Remove the potential seed pod, at the center of the flower. In general, cut the flower back to the next bud or set of leaves.

Deadheading will also encourage additional root growth during the season, as energy is diverted from seed formation.

Some flowers that benefit from deadheading include aster, black-eyed Susan, bleeding heart, chrysanthemum, blanket flower, salvia, pansies and petunias.

It's time to check out the sprinklers

Most of us run our sprinkler system overnight, so we never really see whether the system is operating properly or not. When temps hit the 90-degree range like they are now, all sprinkler problems will show up fast in the condition of the lawn. When it comes to watering lawns, coverage is everything.

This weekend, turn on your sprinkler system, watch each area as it waters and look for problems. Simple adjustments and repairs are basic, required maintenance just like you do for your car.

Signs of deeper trouble:

Since most of the sprinkler system is underground, some problems take a closer look. Here are a couple signs of underground problems:

*Mushy areas in the lawn. A very soggy area may be due to a break in the sprinkler pipe. Go to the timer and stop watering that section of the sprinkler system until you can rule out a break or repair the broken pipe.

*Very dry grass and/or part of the sprinkler system won't run. This can indicate an underground electrical problem or valve problem. Some diagnostic work will be required and you will probably need to call a pro.

*Check out the timer

and special education.

I Can Provide

- Private tutoring tailored to your child's needs.
- Remedial skill work in all subjects and grades.
- Compensation strategies for students with learning differences.
- Organizational strategies.
- Testing strategies and practice.
- Confidential achievement assessment (K - 12)

(Continued from page 9)

Don't forget about the timer--the device that tells your sprinklers when to turn on. If this device doesn't work properly, your sprinkler system won't either.

Containers for Fall

When August arrives treat yourself to a fall container make over. In about 6 weeks when temperatures cool, you'll want a fresh look. Planted in August, containers have time to fill in and look their best for fall. Shop when fall bedding plants have arrived at the Garden Centers and make sure to choose plants that can take the frost.

CENTENNIAL NEWS

Centennial launches Home Improvement Program

Starting July 1, the City of Centennial is launching a new, voluntary Home Improvement Program (HIP) to help homeowners navigate the home improvement and remodeling process. The program is administered by the Centennial Building Division – a great resource for qualified, expert advice and assistance for homeowners thinking about embarking on a major home renovation or expansion.

The goals of HIP are:

Preserve and improve existing home and neighborhoods

Provide assistance and education to homeowners on the home improvement process

Provide resources to help homeowners select quality contractors to ensure projects are completed properly and safely

Support local business

"This program provides homeowners with information and resources on how to go about their improvement projects that require a building permit in order to make the most of their repair and remodel dollars and to select licensed and qualified contractors all while promoting local business," says Wayne Reed Director of Community Development. "An additional perk of the program, is if the project will exceed \$15,000 in total cost, the City will discount the required building permit fees by 20%; funding is available on a limited basis each year. This discount is provided in the form of a refund directly to the homeowner at the completion of the project, when the certificate of occupancy is issued."

For a list of resources and additional information about HIP contact the Building Division at (303)325-8000 or (303)754-3321 or visit www.centennialcolorado.com.

POOL PARTIES

Interested in having a party at the pool this summer? Pool parties can be scheduled through Front Range Recreation, our pool management company. Homestead offers two types of Pool Parties: after hours events in which you have the pool facility to yourself for your group; and parties during regular pool hours in which you share the pool with other residents. Parties during regular pool hours are limited to 20 people and may require that you pay for an additional lifeguard to be hired during your party.

To schedule a pool party at Homestead in the Willows, log on to frontrangerecreation.com and click on the tab labeled "Pools". Scroll down to the Homestead in the Willows pool you are interested in, complete the necessary forms and submit your request. You can also call Front Range at 303-617-0221.
